Cahier des Charges

The logo (simple visual for the user) will be a button only functional for me it will allow me to have access to the administration side (a combination will allow me an unknown connection of all in all discretion).

The page entitled "Presentation", you will find my little presentation with my avatar with the background of a dynamic video, (with below a button see more which will indicate a small greeting user-friendly + a short presentation) as well as a menu bar to proceed to the navigation Fast and page-page fluid that will be incremented on the following. At the foot of the page you will also find icons-link pointing to the page with the name of my domain name and to share the link of my portfolio, a logo France shows that it is currently available only in French with a hover.

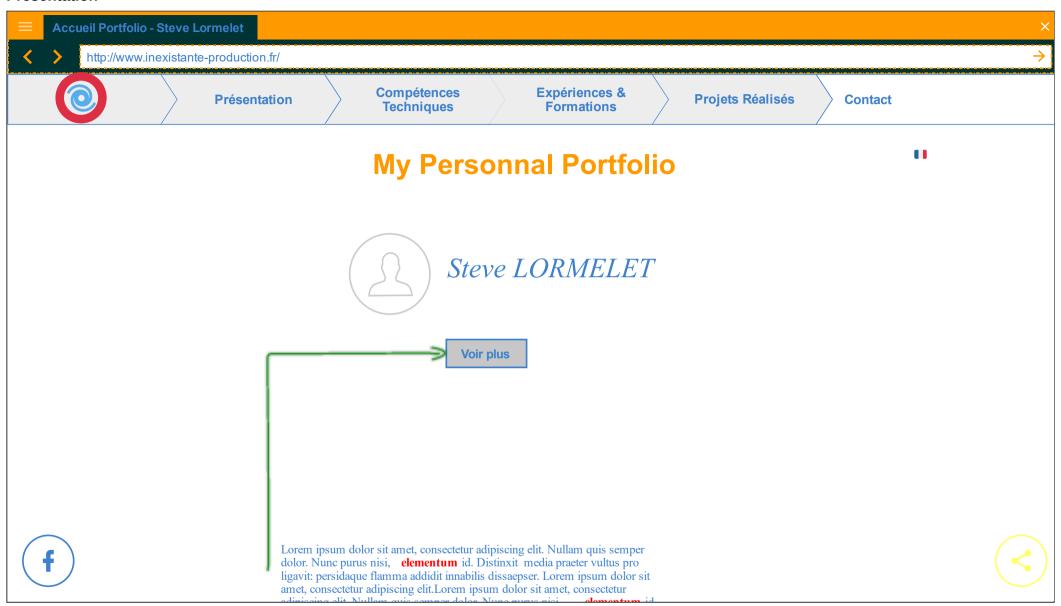

The page entitled "Technical Skills", you will find a background related to the profession of web developer as well as a table with everything I have knowledge, which obviously will be recorded in a database, plus there will be a link GitHub to explore my work.

The page entitled "Experiences & Formations", you will find my experiences as well as my trainings carried out throughout my life (save in MySQL).

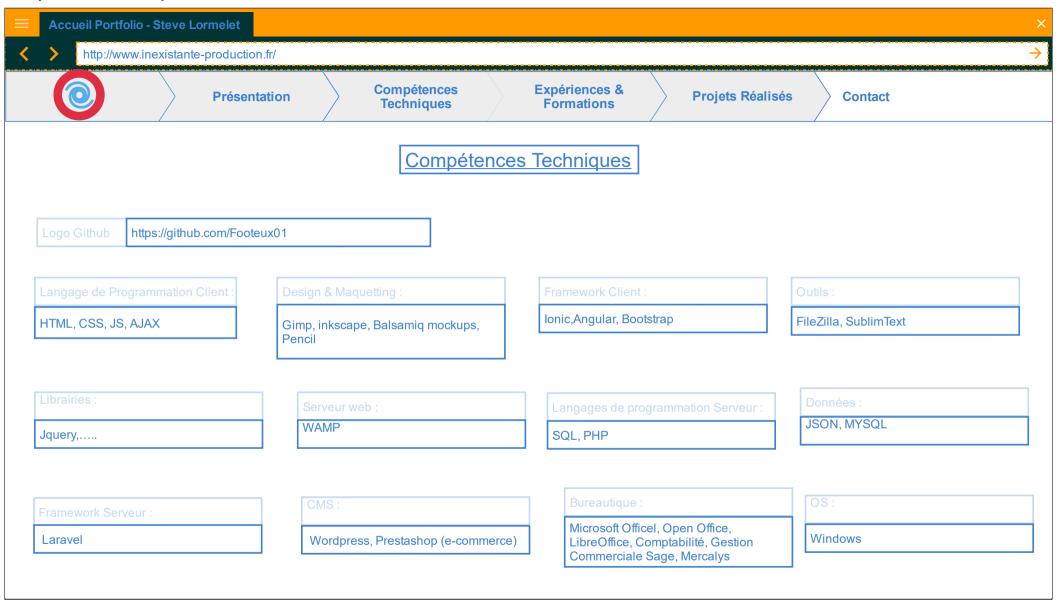

The page entitled "Projects made" you will find some projects realised by my personal care and in group during my training "software developer" in the form of carousel everything will be described in a title, a description.

Finally, there is the page called "Contact", where the visitor wanting an information will just have to fill out his pseudo, email and phone number as well as obviously his request in the Message field.

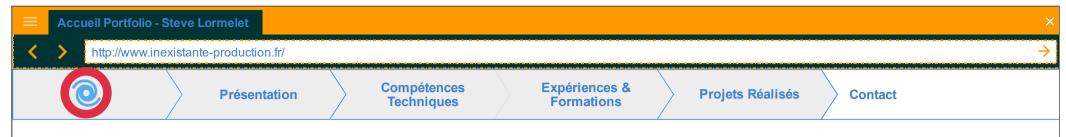

Présentation

Compétences Techniques

Expériences & Formations
